norway

# Live slow, like Scandics do.

## Ready to be inspired?

Enjoy the simplicity and elegance of mother nature by drawing it inside.

Erase the boundaries between the outside and the inside.

It doesn't matter if you like traditional, sober, elegant or cozy designs. You'll find the perfect wall panel in our wide range of natural looking motifs and designs.

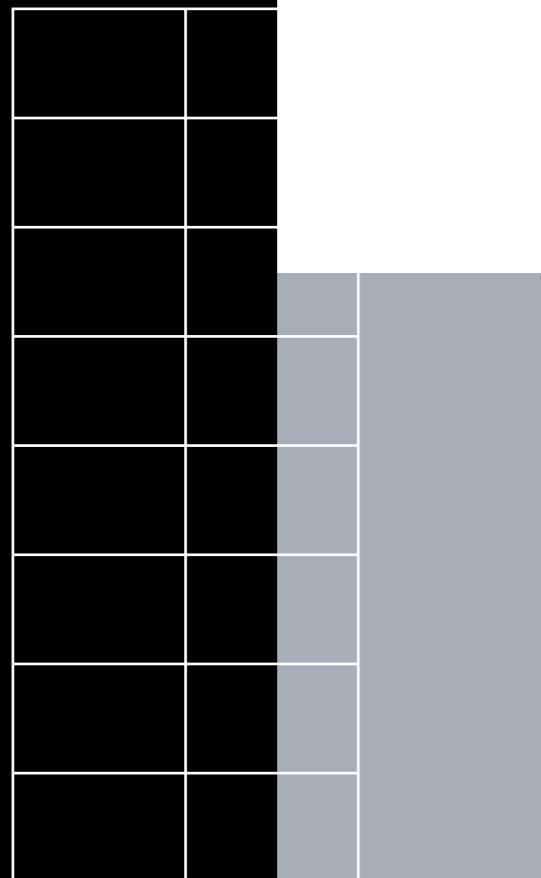

Designed to create an atmosphere of warmth and authenticity.

Our wall panels are made for the busy, chaotic mornings of families with little ones.

For the kids splashing around and making a mess. For early morning routines and for late night hot showers. For you.

Live life your way. Our walls will blend right in.

relax, it's BerryAlloc

why choose — walls.

## Nothing beats the feeling of home.

**Home is what you make it. That's why our collection of wall panels has a design for everyone. Because we've all made life our own.**

Choose from an extensive range of natural-looking motifs, surprising designs and different tile sizes to give your space a new look and feel.

So, if you're on the lookout for a versatile, durable and easy way to renew your kitchen or bathroom interior ... Look no further.

**Make a mess  
of your kitchen.  
Or turn your  
bathroom into a  
private wellness.  
Our walls won't  
mind.**

Go for Walls  
and enjoy ...

**Lifetime warranty**

Just relax, because we promise you a lifetime warranty for every BerryAlloc wall panel in your home.

**Easy installation**

Glued or interlocking, our wall panels combine ease of installation with ease of maintenance. Whether it's your first time or your daily occupation.

**Water-resistance**

Our high-pressure Wall&Water laminate panels can withstand humid and moist environments, making them perfectly suited for use in your bathroom. Splash around all you want. Our wall panels are made to last.

**UV-resistance**

Let the sun in and don't worry about discoloring your walls. All our wall panels are UV-resistant. Their design won't change over time.

**Environmentally conscious**

We take environmental challenges seriously and aim to live up to the demands set for sustainable development. That's why our products are produced, used, recycled and destroyed without damage to the natural environment.

# / wall&water.

Our walls fit your interior,  
your habits, your home.

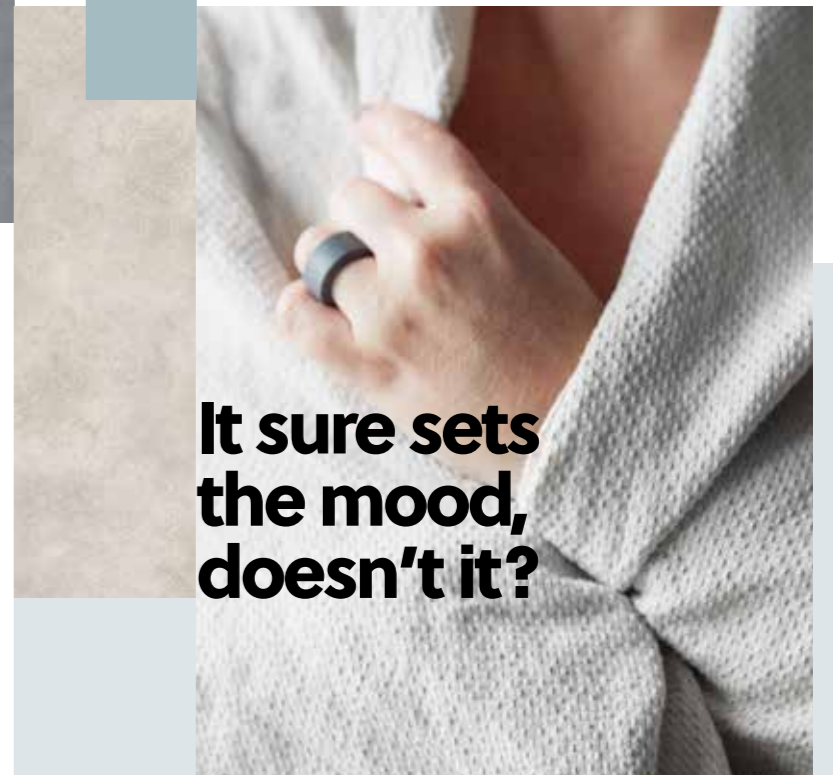

**The choice is yours.  
Our collection has a  
design that you will love.**

**Breathe in  
the charm of  
the north.**

Just relax and create  
a perfect sense of  
wellbeing with  
Concrete Nature.

**It sure sets  
the mood,  
doesn't it?**

# The powdery shades of Black Velvet.

The powdery shades of black give Black Velvet its distinct charcoal look. Which, in turn, bathes your bathroom in a masculine touch of understated elegance. Fill up your bathtub and experience absolute privacy while soaking next to the flickering light of a lone candle.

**For those who like a sense of peace and quiet.**

Our new wall Sandstone is timeless in style, quietly understated, simple yet sophisticated.

# A timeless appeal.

The brushed surface creates a certain balance and order.

Clean crisp lines with a pared-down black and white design.

**Start your  
day with a  
fresh smile.**

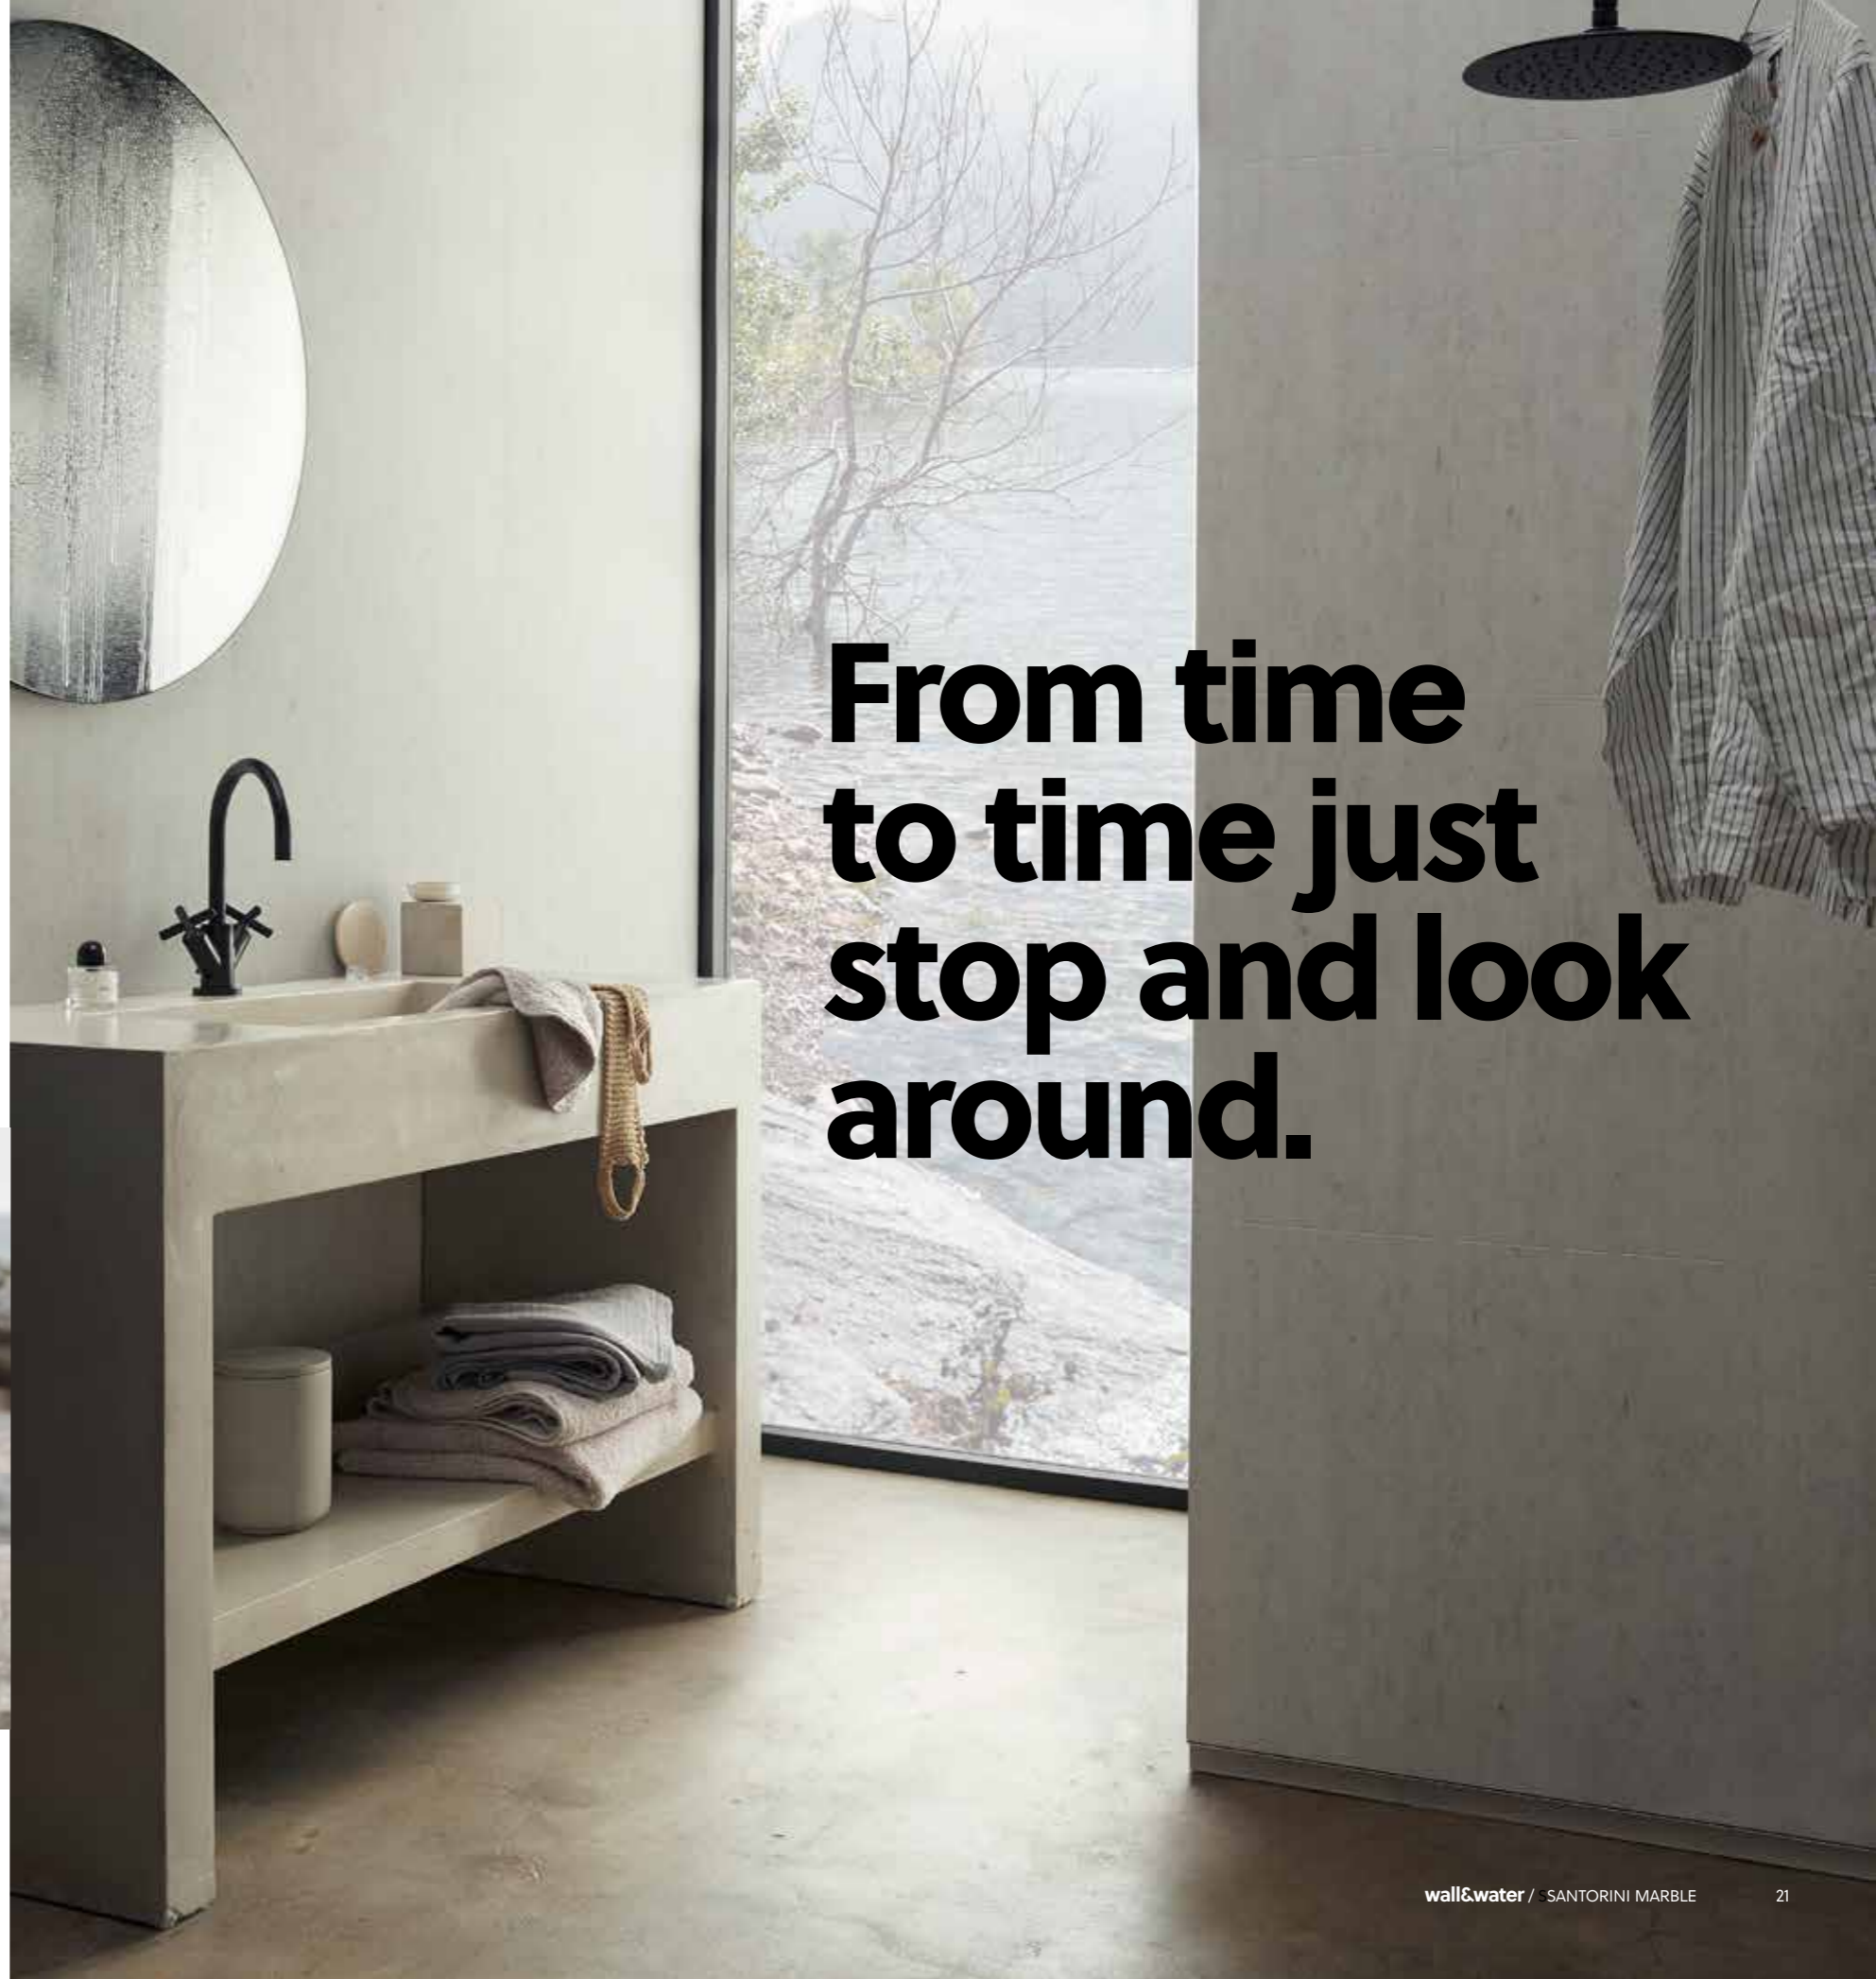

We treat our marble  
extra soft, which makes  
it rich in details and  
keeps it more natural.

Bring some beauty from  
outside into your home.  
Every single day.

Our designs are  
inspired by nature.

**From time  
to time just  
stop and look  
around.**

Combine different natural elements for a mood-boosting look and feel.

# Use Stromboli Marble to make a bold statement.

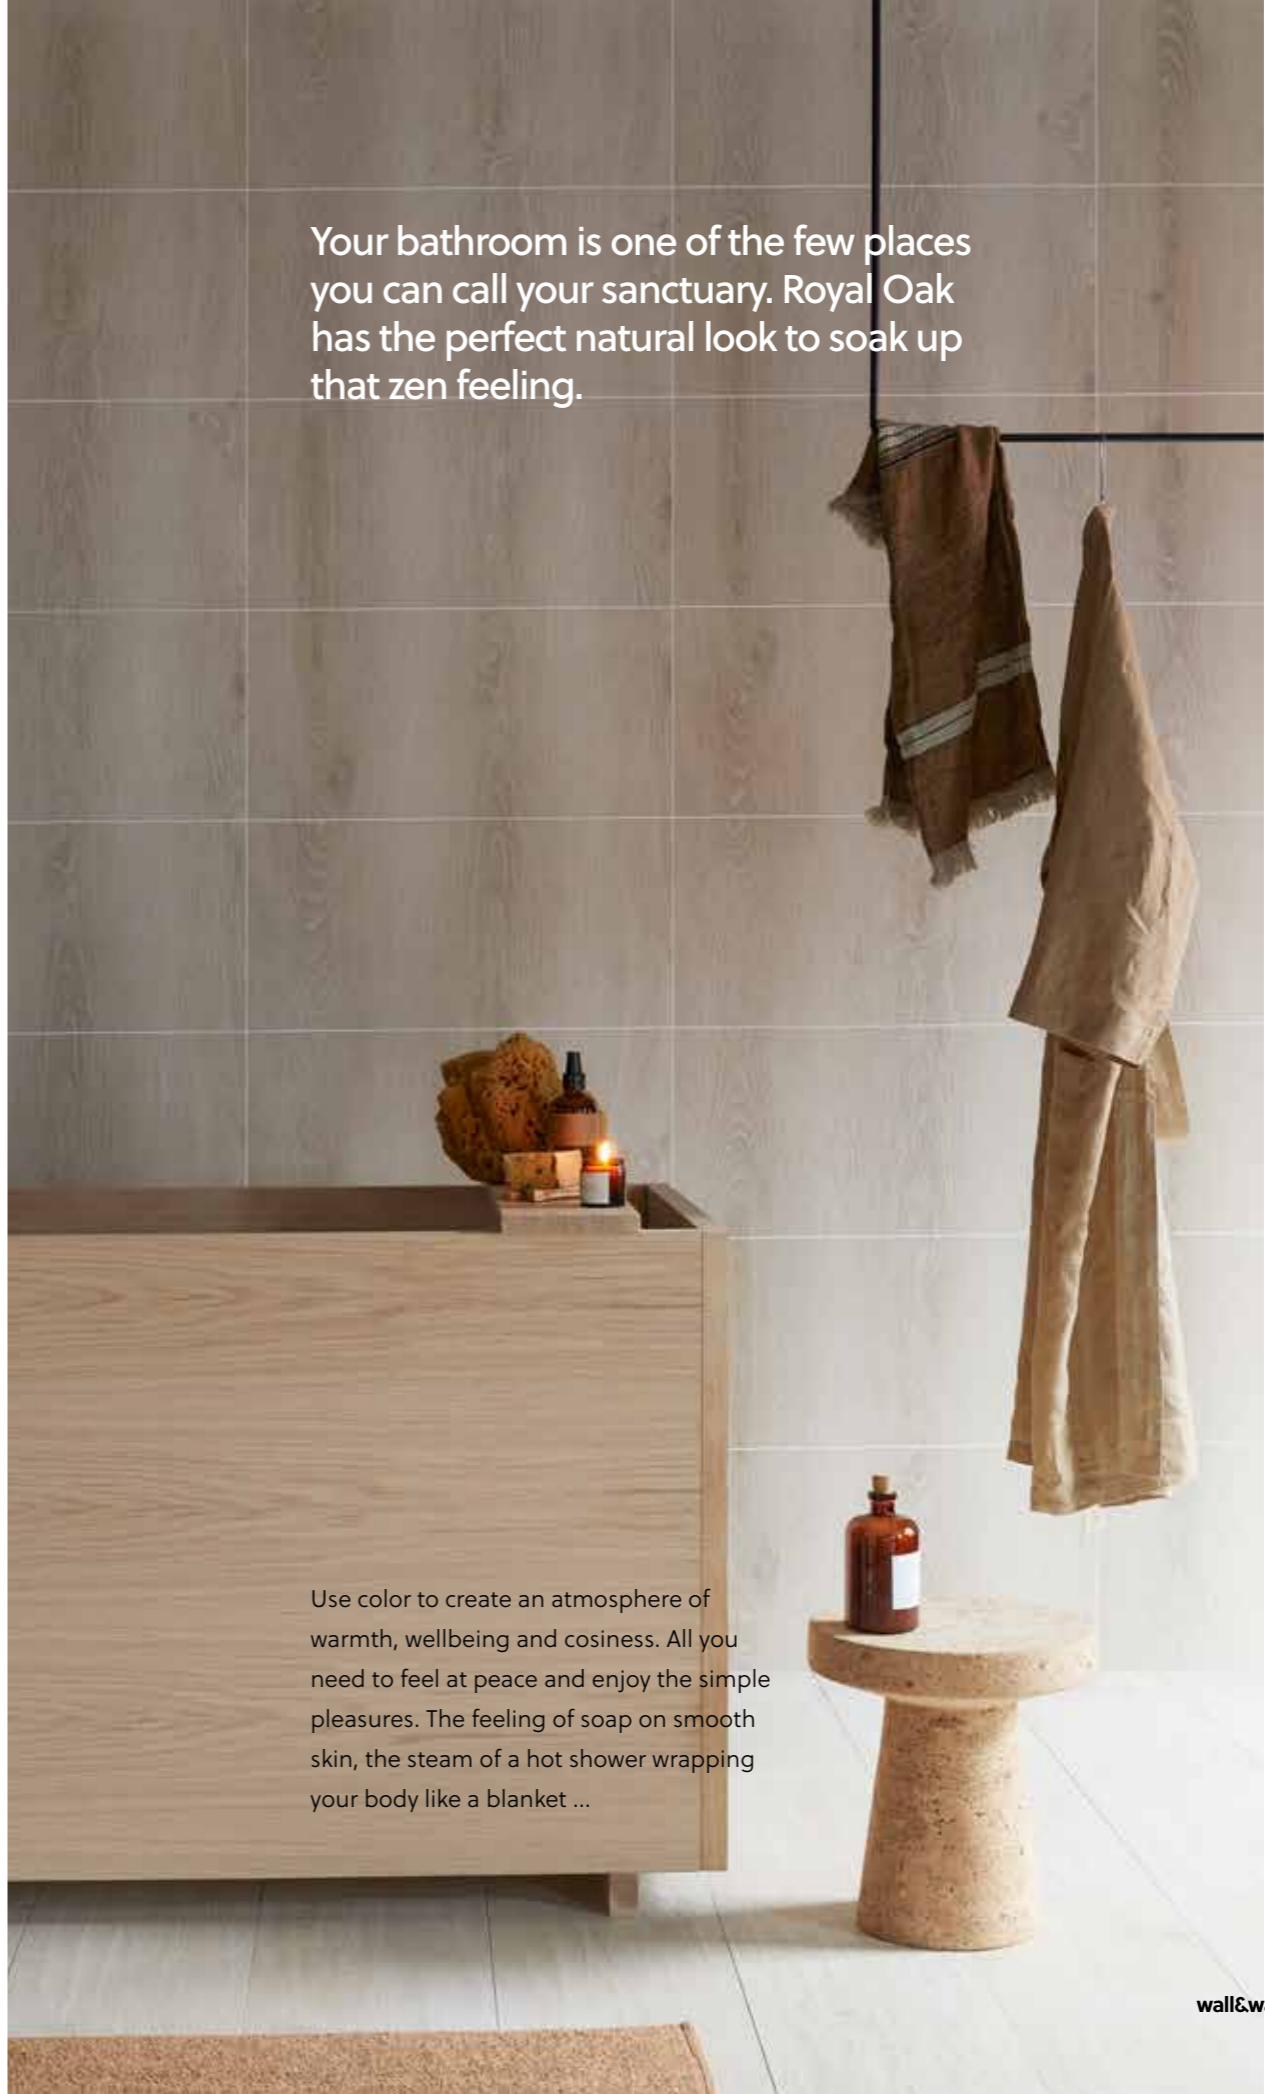

Did you know? Most colors used in Scandinavian interiors are monochrome.

Are you a monochrome traditionalist? Then you know shiny, crisp and even clinical is the name of the game.

**It's about  
the simple  
things in life.**

Your bathroom is one of the few places you can call your sanctuary. Royal Oak has the perfect natural look to soak up that zen feeling.

Use color to create an atmosphere of warmth, wellbeing and cosiness. All you need to feel at peace and enjoy the simple pleasures. The feeling of soap on smooth skin, the steam of a hot shower wrapping your body like a blanket ...

# Oh, nostalgia!

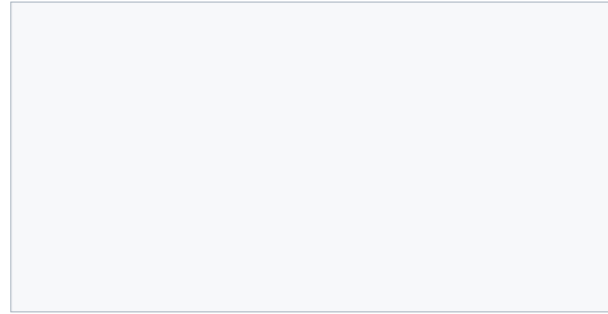

Federa has that retro feeling that takes you right back to your childhood – cozy summers at grandma’s cabin and lots of happy, carefree memories.

# / kitchen wall.

Our Kitchen Wall collection  
– made from durable compact  
laminates – can withstand heat,  
water and even direct splashes  
of boiling water.

**The hardest part?  
Choosing your design.**

**It's all just  
so wonderfully  
simple.**

You can easily and quickly install the panels yourself, without making a big mess. They are also ideally suited for renovations. All you need is BerryAlloc adhesive and a little spare time.

**Wondering whether this  
kitchen wall will fit your  
interior? Of course it will,  
because there's a wall  
for every home.  
A cozy cottage, a modern  
city apartment or a lively  
family place: our walls  
will fit in just perfectly.**

fast & easy  
installation

# Installing your Wall&Water will give you **instant satisfaction.**

**Glued or interlocking, our wall panels combine ease of installation with ease of maintenance. Wall&Water is the only system in the world offering you the look of a tiled wall this quickly and easily - all without the need for grouting.**

1. Wall&Water panels are best mounted on a wooden frame. The panels interlock thanks to the unique 'lock' system developed at our engineering department in Norway. The result: a smooth wall with no visible joints. Your bathroom will be ready in a splash!

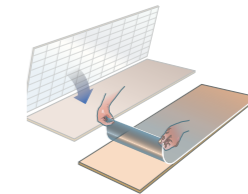

2. The panels can also be glued directly onto a solid wall. In this case, the walls must be absolutely straight and smooth.

3. For walls with existing coverings of varying thickness (such as tiles halfway up), you can fix wooden boards of the same thickness and use BerryAlloc glue.

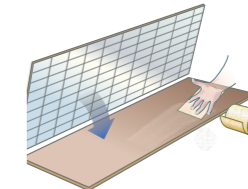

**More detailed installation instructions can be found on our website or YouTube channel: [berryalloc.com](http://berryalloc.com) & [youtube.com/berryalloc](https://youtube.com/berryalloc).**

# How to install your Kitchen Wall? Just follow the **steps.**

1. Remove the plastic foil on the backside of the panel and rub the backside slightly with a 60-80 grit sandpaper.

2. Apply BerryAlloc Adhesive on the existing wall. Remove the protecting foil on the front side of the panel before you continue with the next panel. That way you'll exclude any visual defects.

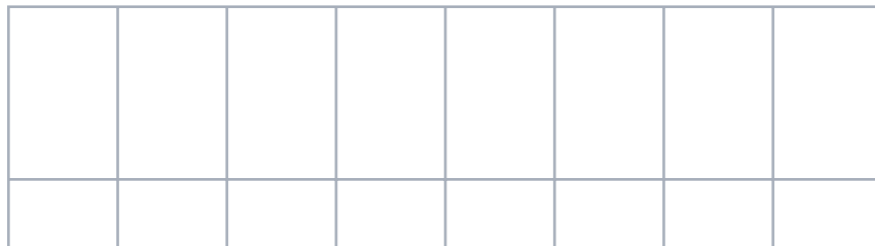

3. Remember to leave a distance of 2-3 mm between the panel and the kitchen countertop for sealant.

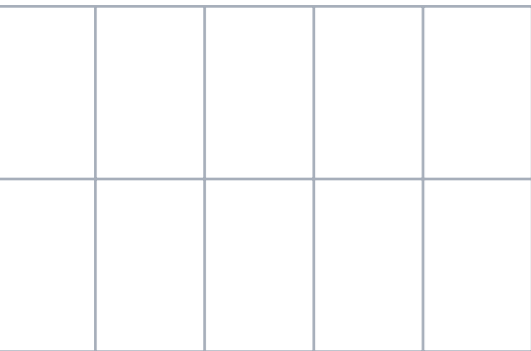

4. To make sure that the panel is not sliding, use something to keep the panel up. This can be:  
Two spikes (levelled)  
Two coins (levelled)

**More detailed installation instructions can be found on our website or YouTube channel: [berryalloc.com](http://berryalloc.com) & [youtube.com/berryalloc](https://youtube.com/berryalloc).**

# Easy from start to finish.

## The difference is in the details.

Go for an easy and efficient installation with our clever accessories. They come in handy when installing our wall panels.

You can use our profiles to provide a smooth transition with another wall. Choose between a bright white color or go for a modern aluminum look.

## product description

- 1.1 Dimensions 2400 x 600 x 10,2 mm (invoiced dimension: 2400 x 620 x 10,2)
- 1.2 Packaging 2 panels/pack, décor 2,88 m<sup>2</sup> and pack 2,98 m<sup>2</sup> (weight 22,6 kg)
- 1.3 Composition
  - surface layer High Pressure Laminate, HPL.  
Papers are impregnated with melamine and phenol resins.
  - substrate Plywood, 7 layers
  - backing Spantex – engineered balancing paper with plastic impregnation (PE).
- 1.4 Joint sealing To be sealed with BerryAlloc Sealant.
- 1.5 Installation Glue-free mechanical locking system, installed according to installation instructions.
- 1.6 Classifications SINTEF technical approval no. 2410.
  - Wet-room approved product acc. to BVN (Byggebransjens Våtromsnorm)
  - European Technical Assessment no. ETA-18/0735.
